*Abstract:* The affected entities are subject to the General Provisions of the NESHAP for Metal Can Manufacturing Surface Coating at 40 CFR part 63, subpart A, and any changes, or additions, to the Provisions specified at 40 CFR part 63, subpart KKKK. Owners or operators of the affected facilities must submit a one-time-only report of any physical or operational changes, initial performance tests, and periodic reports and results. Owners or operators are also required to maintain records of the occurrence and duration of any startup, shutdown, or malfunction in the operation of an affected facility, or any period during which the monitoring system is inoperative. Reports are required semiannually at a minimum.

*Form Numbers:* None.

*Respondents/affected entities:* Metal can manufacturing facilities with surface coating operations.

*Respondent's obligation to respond:* Mandatory (40 CFR part 63, subpart KKKK).

*Estimated number of respondents:* 71 (total).

*Frequency of response:* Initially, occasionally, and semiannually

*Total estimated burden:* 27,517 hours (per year). “Burden” is defined at 5 CFR 1320.3(b).

*Total estimated cost:* \$3,258,800 (per year), includes \$85,200 annualized capital or operation & maintenance costs.

*Changes in the Estimates:* There is no change in the labor hours in this ICR compared to the previous ICR. This is due to two considerations: (1) the regulations have not changed over the past three years and are not anticipated to change over the next three years; and (2) the growth rate for the respondents is very low, negative or non-existent. Therefore, the labor hours in the previous ICR reflect the current burden to the respondents and are reiterated in this ICR.

However, there is an adjustment increase in the respondent cost due to labor rate increases.
